### BUCKNAM PUTS ISSUE SQUARELY BEFORE COCHISE OFFICIALS

County Leader of "Drys"  
Wants Sheriff Wheeler and  
Attorney Ross to Reply to  
His Question.

Editor Review:  
Some ten days ago I wrote Sheriff Wheeler and County Attorney Ross an open letter and up to date have received no reply, asking them a question that is continuously being asked me: "Will the county officers arrest and prosecute persons bringing in liquor who are not even suspected of being bootleggers?"

There is absolutely no law giving the sheriff a right to arrest persons bringing in liquor on their person or in a vehicle unless they are suspected of being bootleggers.

No one objects to officers taking the law into their own hands to protect life and property but to work an un-called-for hardship on law-abiding citizens to the disadvantage of a great cause cannot be commended.

I am informed that Sheriff Wheeler has instructed his men to arrest any person bringing liquor into the state, no matter for what purpose. I cannot believe he has given such orders in as much as the court has plainly said that the state if not intended for law violators.

A word from the sheriff will settle this matter in the minds of a good many people.

We need many laws to aid the sheriff in the enforcement of the amendment but he cannot expect the co-operation of the citizenship in securing such laws if he imposes on them unnecessary inconveniences.

I well know that the officers cannot limit the amount of liquor to be brought into the state, but they can pass up any or all persons whom they know want it for their own use and that will still leave the right to arrest any or all that they suspect of being bootleggers.

I am sure such action is within the law as interpreted by the court and such a procedure would be very satisfactory to all law-abiding citizens and would bring many persons to the aid of the officers in the enforcement of the law.

Ben Kelly, in the past, several years connected with the Warren Laundry Company, has purchased the business of Mark P. John, in Lowell. Kelly will take possession of the establishment today. It is understood that he will renovate the interior of the storehouse and, in addition to a line of candies and cigars, will make a specialty of wholesale and retail ice cream.

Order your Easter suit now, Millard & Bateman, leading tailors. Allen Block.—Advertisement.

WILL VISIT SON.  
Mrs. J. Y. T. Smith, mother of Bertram L. Smith, manager of Buxton-Smith Company, arrived in Bisbee yesterday morning from her home in San Diego. She was brought from Tucson to the District by her son, Mrs. Smith is also the mother of Mrs. Buxton and is very well known locally. It is expected that she will remain in the city all summer as the guest of Mr. and Mrs. Bert Smith, at their home on Quality Hill.

WORTH KNOWING.  
Women are liable to ailments which cause constant ill-health and on which they may consult doctors without much relief. It is well worth knowing that they can get at the drug store a simple medicine made of roots and herbs, which is just what they need to recover health. That medicine is Lydia E. Pinkham's Vegetable Compound.—Advertisement.

RECEIVES AUTO SHIPMENT.  
The Bisbee Auto Company, keeping up to the incessant demand for Studebaker cars, yesterday unloaded another car load of the machines. There were two four cylinder machines and two six's in the shipment and the management anticipates no difficulty in selling them at once.

LOSES FINE DOG.  
Bob McCartney, of the Copper Queen Company, reports the loss of a fine Alredale pup, Sunday night. The dog was tied in his back yard in Upper Tombstone Canyon. It was female and had a white star on her chest. McCartney is very anxious that his pet be returned.

NEW TRAFFIC SIGN.  
The city officers have placed another traffic regulator on the streets. This time the corner, immediately in front of the Copper Queen Dispensary is the location. The placing of the traffic post will necessitate the slowing down of all traffic when it turns to Main street from the Subway, or vice versa and will serve the same purpose that the sign located at the Plaza has.

ENLARGEMENT MADE.  
Watkins & Bergquist, on account of their fast growing business, have found it necessary to add another watchmaker to their staff. In this respect they were extremely fortunate in securing the services of Gerald Debely, a resident of the District for many years. Debely specializes on chronometer, chronograph and all high grade railroad watch repairing.

We have secured the services of Gerald Debely. Old Time Watchmaker in the District, by doing thus our patrons may feel sure of absolute satisfaction in bringing their watches to us for repairs. Railroad watch repairing a specialty.

### The Theater

"THE GIRL AND THE GAME."

The Royal Theatre yesterday presented a program which was, if possible, above the average of the bills seen at that house, each of the two films shown being a feature in itself.

The silent photoplay, "Martyrs of the Alamo," taken either as a play of historical record or as a story alone, is a truly remarkable picture, no expense having been spared in its making, and the splendid acting of the principals engaged helped to make it a dignified and impressive production.

Large numbers of the followers of "The Strange Case of Mary Paze" were in attendance at the Royal to see the latest chapter of this fine serial, which has now reached the apex of its interest, without, however, as yet giving any direct clue as to the final outcome of the story. The next number will be shown on Monday of next week.

This afternoon and night will be shown another strong double bill. The ninth chapter of "The Girl and the Game" will doubtless be enough to attract numerous followers of this serial which is a close rival of the one above named, while the second item is the exciting one known by the title of "Saved By Wireless," which will provide sufficient thrills to satisfy the most strenuous "fan".

"WAR IS HELL."  
D. W. Griffith, perhaps a thousand-fold more effectively than he realized he was making it, has proven that war is actually Hell, made and fed by man—in his spectacle of spectacles, "The Birth of a Nation," which is the extraordinary dramatic and musical announcement for the Orpheum theatre four days, starting April 13 and last Saturday and Sunday that are brief from it between peoples who participate therein are eternal damnation here on earth.

After witnessing Mr. Griffith's most florid and exhaustive treatise on the subject, we more than ever pray for an everlasting peace and a settlement by arbitration rather than further armed conflict—and we would some day like to see the photoplay his limitless imagination could devise out of the possibilities this would afford.

Widows, orphans, wrecked homes and hearts everywhere—the aged parents and weeping little son and daughter, brother and sister all over the throbbing world, are the ones who will heartily say "Amen" to this everlasting lesson of war.

"BROKEN COIN" AT LYRIC.  
The twenty-first episode of "The Broken Coin," entitled "A Timely Rescue," will be shown at the Lyric theatre today featuring the charming strolling actress, Grace Cunard, and the actor, Francis Ford. This episode is full of thrills and sensational acting. Two reels of good comedy will also be shown.

TEAL COMPANY PLEASES.  
The largest crowds that have attended the Raymond Teal company's performance were in evidence at the Orpheum Theatre on Sunday night, when the play, "The Follies of 1916" was the offering.

This comedy contained so many separate items that space forbids an enumeration of each, but it may be said that they were all good, and some exceptionally so.

Possibly the most popular items were the song "My Bird of Paradise," by Homer Long and Chorus and the comedy quartet by Messrs. Teal, Fields, Lane and Kinslow. Another number which was accorded a big hand was a trio by Miss Vandervoort, Miss Rochester and Mr. Kinslow, which gave each of the participants opportunity of displaying the unusual talents they possess.

Tonight on tomorrow night the Teal players will appear in the closing number of their engagement here, and as Mr. Teal has announced that their last play will be their best, it is certain that full houses will attend the performance of "Her Baby Boy," on those nights.

HOLZER PROMOTED.  
To the list of Bisbee's illustrious sons adding fame to their names in other lands is added Charles A. Holzer, newly appointed district commercial manager of the Western Union with headquarters in Tucson. Holzer was manager of the Western Union office at Bisbee years ago, and is generally known here. He will have charge of the third district of the Pacific division.

TAYLOR'S GRANDSON  
FACES MURDER TRIAL  
Progeny of General Zachary Taylor, on Trial for Murder in Arkansas Town.

(By Review Leased Wire.)  
PINEBLUFF, Ark., April 10.—Six hours were secured today to try T. S. Bradberry, great-grand nephew of General Zachary Taylor, former President of the United States, charged with murder. Bradberry is charged with having assassinated his employer, P. G. Jenkins, a wealthy planter of Sherrill, on December 16 last. Affections for his employer's wife, Mrs. Johnnie Jenkins, will be ascribed as the motive.

Circuit Judge W. B. Sorrells today overruled three motions offered by Bradberry's attorneys. The first was for a change of venue. The second was that the officers be compelled to return letters, photographs and other documents taken from Bradberry's trunk after his arrest. The third motion was that the indictments against Bradberry be quashed.

Mrs. Jenkins, who was left her husband's \$100,000 estate by the terms of his will, was not in court today.

### CITY'S YOUNG FOLKS IN DANCE TO-NIGHT AT MUNICIPAL PARK

Beginning of Popular Outdoor Parties Will Furnish Entertainment and Also Provide Funds to Continue.

There's a treat in store to-night for those young folks of the Warren District who like to dance. Charles Cunningham completed arrangements yesterday for the first of the popular outdoor parties to be held in City Park and a delightful time is assured, not only to the young folks but also their elders who may look on if they don't care to trip the light fantastic.

Mr. Cunningham and his colleagues who are putting heart and soul in the success of the City Park refuse to be discouraged over a fact that the treasury is nearly empty and the park uncompleted. Leon Shattuck came to the rescue yesterday with a check for \$200, although previously he had contributed generously to the cause. Until this gift came, the original fund was reduced to \$24. Each day finds progress of some kind made in the park project, and all citizens are requested to participate in this worthy object.

Admission to the park will be free to-night, of course, but those who dance will have opportunity of aiding the park by paying 50 cents for their entire evening's entertainment. The City Band has volunteered its splendid services free of charge. Dancing will start at 8 o'clock and "Home Sweet Home" will be played promptly at 11 p. m. in order that residents in the neighborhood may not be kept awake by the music and laughter of the merry-makers.

BENEVOLENT SYSTEM  
FOR MEXICO, FORCAST

(Continued from Page 1)  
western world unless it was ready to fight.

The only thing that has prevented annexation of parts of the western world by European powers, he said, was the belief that the United States was ready to resist.

"It is not impossible," continued Dr. Hart, "that if instead of—shall we say 10,000 or 15,000 troops distributed along the border of Texas during the last year and a half, there has been a hundred thousand or half a hundred thousand—the United States would not be today in a situation so embarrassing, so mortifying to a sense of national dignity, and national honor as at the present moment."

Changing relations of the United States in Latin-America within the last 10 years, he declared, however, had seen the creation of five protectorates with six more additions likely the next few years. One of the six, he asserted, would be Mexico.

"I should be willing to risk a reputation which I have not yet acquired as a political prophet," said the speaker, "by saying that within five years the so-called republic of Mexico will be an independent republic under the benevolent superintendence of the United States."

Information has reached state department in Washington indicating that Holland's extensive military operations are directed against both Great Britain and Germany.

Motor oil made from asphalt-base crude gives best lubrication with least carbon. Such is the testimony of motorists and experts alike. As Lieut. Bryan, U.S.N., puts it: "Oils made from the asphalt-base crudes have shown themselves to be much better adapted to motor cylinders, as far as their carbon-forming propensities are concerned, than are paraffine-base Pennsylvania oils."

Zerolene is scientifically refined from selected California crude—asphalt-base—not only made from the right crude but made right. Dealers everywhere and at service stations and agencies of the Standard Oil Company.
